

Each article of  
furniture in this  
home was made  
for her by  
to buy a in  
her neighbor-  
hood, just a  
few miles from  
home and give  
it to her as an  
expression of  
gratitude  
that she was  
the Director  
of the Home  
Craft  
Association.

Miss Louise Brigham standing at her  
desk in Bot Corner Third in New York City.

The entire furniture in her home (63 articles)  
has been made from the materials found in  
old boxes. Each article is original in design-  
(designed to meet some special need and to fill  
some particular space) The desk for instance is built  
around a window thus throwing light upon the  
writing section which is just inside where she is  
standing. Book cases, compartments for manuscript  
illustrations and correspondence are at hand as she  
is an artist as well as a writer.
